

Interior **Paint Schemes**

Exceed Homes' interior colour range reflects modern palettes and gentle tones for easy living.

We've put together five of our most popular interior colour schemes for you to choose from for your new home.

We have worked closely with our painting professionals to create modern palettes that cater to multiple styles and will fit any need. From crisp, clean whites to gorgeous, warm tones, these will leave your home looking inviting and create spaces you won't want to leave!

To assist you in picking a scheme right for your personal style, in addition to the handy colour guides we applied them to interior settings to give you an appreciation of the colours in an internal space.

Please note changes to these schemes will result in a surcharge being added.

Exterior Paint Schemes

When it comes to your exterior paint scheme, the sky is the limit as there's no restrictions on what colours you can pick.

If you're unsure if your desired colours will work on your site, feel free to chat with our team on colours that will work for your style and cladding options.
